

YOUR ESTATE  
*Matters*

## LESS AND MORE

Welcome to our "Less and More" series of E-NEWS BLASTS from my office! "Less", in the sense that an email should be short and to the point. "More", in that we are going to send an email-a-week for a while. LESS AND MORE!

Do you own real estate OTHER than your personal residence? If so, how that property is titled affects you in ways from the estate/capital gains tax to whether a medical or other creditor can attach your real estate in the future.

Asset Preservation is a growing area of our practice. Making sure the right people get your "property" upon your death is important, but it's equally important to make sure you "have property" when you pass.

Always feel free to give me a call to make sure things are being handled in the best way possible.

~Clancy
